## Task 3.2 on data for REGINA-MSP european project - 15.06.2023

### ONLINE MEETING #2 - 16.05.23

24 people attended

Shom (the Hydrographic & Oceanographic Service)

1 - A recap was provided on online meeting #1:

Identification together with the participants of the **subjects** which were to be discussed during this series of online meetings and the workshop on data in Paris.

Special focus on the **Greek regions** of the project.

2 - Interesting presentations focusing on the **guest country Italy** were presented with one dedicated to the geoplatform Tools4MSP by our partner from CNR and another on data and tools for the spatial planning of aquaculture activities in Sardinia by IMC representative.

3 - Shom's geomatic officer from REGINA-MSP project presented his work on a grading scheme for geoportal, identifying a number of **features and priority** which are deemed as important for being useful.

UNDERSTAND THE GEOGRAPHICAL SCOPE OF THE DATA EASILY

## METADATA

EASY TO NAVIGATE

QUALITY & EASY TO USE

ACCURACY OF DATA

QUALITY OF DATA

## USER FRIENDLY

## ACCURATE DATA

INTERACTIVELY VERIFIED DATA

## COMPREHENSIVE DATA

To conclude, this meeting was successful given the intense questions-answer part from the attendees regarding regional geoportal for MSP use.

Thank you for coming and for your participation.

### UPCOMING : ONLINE MEETING #3

Our second online meeting will take place the **23rd of June 2023 between 9am and 11am CET**, if you were not registered to the #1 or #2 online meeting, you can register now for this meeting using [this link before the 22nd of June](#).

Guest speakers from France (Provence-Alps-French Riviera and Mediterranean Interegional Direction of the Sea) will be presenting on regional geoportals and data collection for MSP needs.

Some recommendations on the standard and format use for MSP data sharing harmonisation between regions, states and the EU will be provided by Shom geomatics officer.

Some homework to do:

We kindly ask the assistance of online meeting participants to bring their knowledge, on case study regions in REGINA-MSP project.

Here you will find a [survey on MSP data](#) to fill data gaps and identify needs in each region. Please feel free to fill it before the 22.06.2023.

Furthermore, to help improving the grading scheme on geoportal proposed by Shom during last meeting, you are welcome to add criteria and comments on [this document](#). The deadline is 31.08.2023.
